

Master AI for Business Innovation

The **IEEE | Rutgers Online Mini-MBA: Artificial Intelligence** program demystifies AI for business professionals in technology by providing foundational knowledge to assess AI's capabilities. This holistic, strategic, and non-IT approach helps solve business problems, optimize processes, and enhance customer service to improve an organization's bottom line.

PROGRAM HIGHLIGHTS

ADVANCED
highly specialized
course curriculum

Developed by top-rated IEEE subject matter experts and Rutgers Business School faculty members and based upon real-world business and AI best practices.

CONVENIENT
on-demand
class format

In 12 weeks or less, employees study timely topics and develop applicable skills through the powerful combination of expert-led instruction and peer interaction.

FLEXIBLE
focused sessions led
by expert instructors

Self-paced video lessons are paired with interactive assessments, virtual live office hours, and a capstone project to help employees maintain that critical work-life balance.

OBJECTIVES:

Upon successful completion of the mini-MBA program, learners will be able to:

- Gain strategic insights and actionable strategic knowledge in AI-powered automation principles and terminology.
- Understand AI's impact on core business functions and learn how to effectively collaborate with technical teams or vendors leveraging AI technology.
- Develop a roadmap for assessing and applying AI capabilities within their organization.

PROGRAM BENEFITS:

- Demonstrates commitment to developing and retaining employees
- Offers online, perpetual access to course materials for reference as employees are pulled into projects on the job
- Provides academic credits that can be applied toward future education goals, as well as a digital badge and certificate
- Offers learning opportunities in small increments that can be incorporated into a workday
- Allows learners to acquire a unique skill set that is fundamental to many organizations' products and service lines
- Provides a lower cost and shorter time commitment compared to traditional graduate degree programs
- Customizable with an available add-on option to tailor the capstone project topic to suit your organization

- Introduction to AI
- Data Analytics
- Process Optimization
- AI for Marketing and Sales
- AI for Customer Service and Customer Experience
- AI for Supply Chain
- AI in Finance
- Ethics in AI
- AI's Impacts on The Future of Work: New Careers, Coworkers, and Competencies
- AI for All: Roadmap to Success

ABOUT IEEE

IEEE, a not-for-profit organization, is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. Through its more than 500,000 members in over 190 countries, IEEE is a leading authority on areas ranging from aerospace systems, computers, and telecommunications to biomedical engineering, electric power, and consumer electronics, among other technologies.
